NOTICE OF PRIVACY PRACTICES

HIPPA – Patient Consent For Use and Disclosure of Protected Health Information

I hereby give my consent for V•EYE•P to use and disclose protected health information (PHI) about me to carry out treatment, payment and healthcare operations (TPO). V•EYE•P's Notice of Privacy Practices provides a more complete description of such uses and disclosures. I have the right to review the Notice of Privacy Practices prior to signing this consent. V•EYE•P reserves the right to revise its Notice of Privacy Practices at anytime. With this consent, V•EYE•P can call me at home or other alternate location and leave a message on voice mail or in person in reference to any items that assist the practice in carrying out TPO, such as appointment reminders, obtaining insurance information, billing and any calls pertaining to my clinical care. With this consent, V•EYE•P may mail to my home or other alternative location any items that assist the practice in carrying out TPO, such as appointment reminder cards, statements and/ or insurance information. By signing this form, I am consenting to V•EYE•P the use and disclose of my PHI to carry out TPO. My signature below signifies my understanding and willingness to comply with the above policies.

ACKNOWLEDGEMENT OF FINANCIAL RESPONSIBILITY

When provided the necessary insurance information prior to an appointment, the staff of V•EYE•P makes every attempt to verify patient's benefits. In addition, the staff will gladly file insurance claims on behalf of the patient. The insurance carrier will review the claim and accept or deny coverage as they deem appropriate. Should the insurance company deny coverage, it is the patient's responsibility to pay any and all of the balance to V•EYE•P. To be better prepared, patients should attempt to know their coverage including deductibles, co-pays and non covered services.

The staff of V•EYE•P can give you a general idea of what may or may not be covered by your insurance plan before seeing the doctor. However, we can not always know for certain what services will be provided by the doctor before the examination.

Whether a visit will be filed with a vision carrier or a medical carrier is dependent on several factors including but not limited to patient's reason for visit, type of exam performed, and diagnoses. Any diagnosis other than a routine vision diagnosis will result in a medical claim submittal. At times, patients may be able to use both medical and vision benefits to maximize patients' benefits.

By signing below, I acknowledge that I have read and understand the above.

Our office offers digital scanning technology (OPTOS) that allows us to view the inside of your eyes without the use of dilation drops. This new technology allows us to evaluate your retina for problems such as **macular degeneration, retinal holes, retinal detachments, glaucoma, hypertension, and diabetic retinopathy.** This technology also helps in explaining why **headaches or changes in vision** may be occurring.

EARLY DETECTION IS CRUCIAL!

We strongly recommend that **ALL** patients have a thorough examination of their retina every year. **WITHOUT THE RETINAL EXAMINATION, THE DOCTOR CANNOT FULLY ASSESS THE HEALTH OF YOUR EYES.** There is an additional fee for this new technology, unless our patient care coordinator has explained otherwise.

_____ **I elect to have an OPTOMAP digital scan of my retinas today (\$39.00)**

- The optomap digital imaging system captures more than 80% of your retina in one panoramic image, whereas traditional methods reveal only 10-12% of the retina at one time.
- The optomap enhances your eye doctor's ability to detect the earliest sign of disease that presents on your retina.
- The optomap takes only seconds to perform, is not painful, does not blur your vision, and typically does not require dilation.
- It provides a digital photo that is shown to you and kept for your records.

_____ **I elect to have a dilated exam of my eyes today and I understand that the dilation may cause blurry vision, light sensitivity, and headaches for up to 8 hrs, and may impair my ability to drive.**
